#### Longevity Aids.

A 91-year-old woman attributes  
longevity to meat eating. The  
monogenarians reporting, we  
have, relied respectively on  
rich mixture and graham bread.  
Dietists get encouragement from  
facts like these, but people who  
are in doing as they like get more.

#### When Father Is Old.

About the only procession "father  
ever heads is when the members  
of the family think they hear a burp.  
The dead of night, and push  
the little old man at the head of the  
procession that looks for the burglar.  
Hatchison Giohe.

#### Not Much of a Curiosity Now.

When the Hotel Kirby in Grafton,  
Mass., was built in 1793, the panes  
of glass in the windows were a  
curiosity, they were so large. The  
story brick building was then  
considered an imposing structure.

#### Nothing New.

"Yes," said Josh Hardacre, "I guess  
they done things in Bible times about  
the same's they're done now. Least-  
ways they must of had courts in them  
days, for I've just been readin' a  
scriptural injunction."

#### Finger Nails.

White spots in the nails are usually  
due to imperfect circulation of the  
blood and nervousness, and these,  
again, are due to wrong living. Live  
right, and the spots will disappear.

#### Youthful Remembrance.

"Look, papa," said the small girl,  
as she and her father passed the  
church where the little one had been  
baptized. "There is the place where  
I was chrystallized."

#### The Pleasure Haters.

A good many people go through this  
life as if they were trying to punish  
themselves for a grudge they had  
brought along from some former ex-  
istence.

#### Never Saw Train or Street Car.

Harry Craun, who lives 26 miles  
from Staunton, and had never before  
seen a train or street car, was in the  
city to-day. He would not leave the  
railroad station, expressing the fear  
he might get lost. He is otherwise  
very intelligent, and was well dressed  
and seemed to appreciate the humor  
of his situation.—Richmond Times-  
Dispatch.

#### Again the Composition.

One can imagine the annoyance of  
the racing reporter who was trying  
to describe a close finish but only  
succeeded in getting this statement  
into print: "Kingman beat him  
twice the first time by less than a  
week in a dinadong drive." And yet  
back doesn't seem to look so much  
like work.

#### To Prevent Choking.

When a fishbone is swallowed and  
edges in the throat, pressure on the  
root of the tongue will induce vomit-  
ing, which will in many cases dislodge  
the bone. If not, a mustard emetic  
should be given and the patient made  
to swallow a large piece of bread or  
celato.

#### TO ALL WHOM IT MAY CONCERN.

Notice is hereby given that I, as  
Treasurer and Ex-Officio Collector of  
Mora County, in the Territory of New  
Mexico, in conformity with a judge-  
ment rendered on the 6th day of May,  
A. D., 1907, by the District Court of  
said Mora County against delinquent  
tax payers of said County whose taxes  
amount to more than twenty-five (\$25)  
dollars shall on the 5th Day of July,  
A. D. 1907, at the front door of the  
Court House of said Mora County in  
the town of Mora, New Mexico, that  
being the building in which the Dis-  
trict Court for said County is held,  
offer for sale at public auction, the  
real estate and personal property  
described in the delinquent tax list of  
said Mora County for the year 1905,  
and against which said judgement has  
been rendered, for the amount of  
taxes, penalties and costs due there-  
on. The said sale will be continued  
from day to day as provided by law,  
and property remaining unsold at  
said sale will be by me sold to the  
County of Mora.

CHARLES U. STRONG,  
Treas. & Ex-officio Coll. Mora Co.

#### Ninety-Nine Year Leases.

Ninety-nine year leases are said to  
have had their origin in England. In  
Queen Elizabeth's time a law was  
made prohibiting property owners  
from renting their ground or buildings  
for a longer period than 100 years,  
and thereafter the 99 year lease be-  
came popular. At one time there was  
a statute in the Illinois code by which  
the length of a lease was limited, but  
this later was declared unconstitutional.

#### Somewhat Growsome Humor.

A well-known city officer in Auld  
Reekie was celebrated for his can-  
ning and wit. His mother having died  
in Edinburgh, he hired a hearse and  
carried her to the family burying  
place in the Highlands. He returned  
with the hearse full of smuggled  
whisky, and being teased about it by  
a friend, he said: "Oh, man, there is  
no harm done! I only took away the  
body and brought back the spirit."

#### The Gospel of Work.

Few artists of the present day have  
worked harder during their career  
than Sir Lawrence Alma-Tadema.  
"Nothing is achieved in this world,"  
he once said, "certainly no sterling  
success of any kind whatever, except  
at the expense of sheer hard work,  
and plenty of it. This has been my  
experience from my youth up."—The  
Reader.

#### Prosy Talk After Dinner.

From New York comes a wall of  
agony. It is the despairing cry of the  
bored diner; the man who goes to a  
banquet and has his entire evening  
spoiled by the stupid speeches which  
top off the feast. He even threatens  
to forego this feeling; a terrible threat  
for a metropolitte and an index of the  
greatness of the evil and its accom-  
panying torture.

#### Varnish for Furniture.

In 52 parts of alcohol dissolve four  
parts of shellac. On the other hand,  
dissolve the same quantity of boiled  
linseed oil in 16 parts of oil of turpen-  
tine. Mix the two solutions slowly,  
while stirring constantly. Finally, add  
four parts of liquid ammonia and mix  
vigorously to render the whole perfect-  
ly homogeneous.—Chemiker Zeitung.

#### No Good In Whining.

Whining is a poor investment for a  
young man to make. It never pays  
dividends. The person who sits back  
and complains because things aren't  
different makes little progress. The  
man who makes the best and the most  
of his surroundings and keeps his na-  
ture cheery is the one who is the most  
likely to move up and to get ahead.

#### Secret of Jewish Success.

Isaac Seligman, the well-known New  
York banker and philanthropist, was  
asked several days ago why Jews in-  
variably succeed, and his reply was:  
"My people keep their heads, work  
hard and spend their spare time in  
their homes."

#### Mortality Among Children.

Of every ten children born in Eng-  
land and Wales, only seven reach the  
age of 20. In France only one-half  
of the children born reach that age,  
and Ireland shows a still more deplor-  
able record.

#### Advice.

When a man succeeds through  
heeding the advice of others he is  
always inclined to think that his tri-  
umph would have been more brilliant  
if he had gone his own way.

#### With the D.H.

A Massachusetts doctor holds that,  
despite modern theories, bleeding is  
the only way to treat patients.  
With or without a knife?—New York  
Herald.

#### Modern Hospitality.

Hospitality is that subtle something  
whereby fair women and brave men  
are compelled to march to a person-  
age they hate and thank her for bor-  
ing them to death.—Puck.

#### Parental Guidance.

To be tactful is the only means of  
parental victory; to be watchful while  
seeming indifferent, to guide with an  
invisible hand.—Laylala Hart.

#### In a Bad Way.

"Love," remarks an urban philoso-  
pher, "is blind, frequently dumb, and  
so far as advice is concerned, invari-  
ably deaf."—Washington Herald.

#### The World's Habit of Ill-Using.

Though my complaint of the world  
is new, its habit of ill-using is very  
ancient.—Columbus While in Chains

#### They Are All Prominent.

Disgraced, full of a Georgia citizen  
found dead in the woods with his  
shirt for an apron, not prominent  
any more, the body. Problem: To  
find the one who did it.

At last Solano has organized a ball

from Pueblo, with Mr. Barret as tem-  
porary manager. No captain has  
been elected yet, that being deferred  
until the makeup of the team is decid-

east of the post office, and practice is  
held regularly. The following men,
